# 1 GPRS Stick Installation

Step 1:
Use a screwdriver to
open the Smart GPRS.

Step 2:
- Slide cover to the left to unlock and open;
- Insert the card into the slot (Make sure the core is facing down);
- Close the cover;
- Slide cover to the right side to close.

Note:
1. Please check from the side of the slot to make sure the SIM card core has sufficient contact with the card slot.
2. Please make sure the cover has been slide properly, otherwise the signal might be reduced.

Step 3:
Insert the Smart GPRS board into the shell.

Step 4:
Insert the Smart GPRS into the inverter WiFi/GPRS interface and tighten the dongle.
Note: lable face to front.

Note: The device must be away from strong magnetic fields generated by large electrical equipment, such as microwaves stoves, refrigerators, wireless phones, photovoltaic panels and metal walls to ensure communication quality. Communication quality might be affected by lightning.

2 APP Installation
